

Weekly Drawing Assignments

- *Drawing assignments should be done in the art sketch pad provided by the school as part of the \$5 fee listed on the school supply list.*
- *The sketch pad should not be used for any other drawings other than the ones assigned at school.*
- *The drawing assignments have been added as links at the bottom of this page. Students may print out the assignment on their home computers. The link will lead the student to a pdf file which is easily viewed and printed on any computer. Printed copies of the assignments will be available to students without access to a computer. Students may complete assignments ahead of time to help avoid problems with too much homework, sporting events, or family time.*
- *The drawings should be in pencil unless otherwise stated.*
- *If a student likes the thrill of more complicated drawing assignments, he or she may tackle the Drawing Challenge assignments as extra credit.*
- *Students will be rewarded for completing the drawing assignments when due. If complications arise due to the need for studying for a test or for another reason such as a sporting event, drawing assignments may be turned in the next art class; however, the reward will only be given for drawing assignments turned in on time or early. If a student is absent due to illness, the drawing assignment may be turned in the next art class and still receive a reward.*
- *Students need to sign and date all drawings.*
- **NO TRACING!** *I can tell when something has been traced, and you don't get the same drawing skills when you trace.*
- *It's very important students remember the drawings DO NOT HAVE TO BE PERFECT! There are many drawing styles, and with practice comes increased ability. It's the attempt and the attitude that's important. Students should not tear out pages from the sketch pad or start over repeatedly.*
- *Parents - feel free to try a hand at the drawing assignments yourselves. You never know how much you might enjoy it until you try!*
